THE SHEGENTIX RANGE

A professional overview for international buyers, distributors and private-label partners seeking surgical instrument supply from Pakistan.

01

SURGICAL

Scissors, forceps, clamps, needle holders and retractors.

02

DENTAL

Diagnostic, extraction, restorative and periodontal instruments.

03

MAXILLOFACIAL

Titanium miniplates, fixation screws and supporting OMFS instruments.

04

OEM / PRIVATE LABEL

Buyer-specific marking, sets, presentation and packing.

SURGICAL INSTRUMENTS

Stainless-steel surgical instrument families for distributor, hospital-supply and private-label requirements.

PRODUCT HIGHLIGHTS

- General surgery scissors, forceps and tissue-handling patterns
- Needle holders, clamps and hemostatic instrument families
- Retractors and supporting surgical patterns
- Pattern, working length and finish confirmed per requirement

BUYER NOTE

Share the exact pattern, size, finish, quantity and packaging requirement for quotation. Product specifications are confirmed per inquiry and order.

DENTAL INSTRUMENTS

A focused dental instrument range for distributors, clinics and private-label supply programs.

PRODUCT HIGHLIGHTS

- Diagnostic mirrors, explorers and examination instruments
- Extraction forceps, elevators and surgical dental patterns
- Periodontal and restorative instrument families
- Custom dental sets and buyer-specific presentation

BUYER NOTE

Share the exact pattern, size, finish, quantity and packaging requirement for quotation. Product specifications are confirmed per inquiry and order.

MAXILLOFACIAL SYSTEMS

Maxillofacial fixation and supporting instrument requirements for oral and maxillofacial surgery supply.

PRODUCT HIGHLIGHTS

- Straight and shaped titanium miniplate families
- Small fixation screws in buyer-specified system requirements
- Plate holding, contouring and fixation support instruments
- Titanium grade, dimensions, compatibility and regulatory requirements must be confirmed before order

BUYER NOTE

Share the exact pattern, size, finish, quantity and packaging requirement for quotation. Product specifications are confirmed per inquiry and order.

SPECIALTY DIVISIONS

Beyond the core range, Shegentix Surgical can discuss specialty instrument requirements and buyer-specific pattern lists.

01

ORTHOPEDIC

Bone holding, cutting, reduction and supporting surgical patterns.

02

ENT

Ear, nose and throat diagnostic and surgical instrument families.

03

OPHTHALMIC

Fine scissors, forceps, needle holders and delicate instrument patterns.

04

GYNECOLOGY

Speculums, forceps, retractors and related surgical instrument families.

YOUR BRAND. OUR SUPPLY SUPPORT.

Build a structured OEM discussion around the instrument list, finish, marking, packaging and commercial requirements for your market.

01 SHARE REQUIREMENT Send instrument names, reference codes, sizes and quantity.

02 CONFIRM SPECIFICATION Agree pattern, finish, marking, set and packing details.

03 PRODUCTION & QC Order requirements move through the confirmed manufacturing and inspection flow.

04 PACKING & EXPORT Final packing and commercial shipment details are prepared for the order.

EXPORT INQUIRY

LET'S BUILD YOUR PRODUCT REQUIREMENT.

Send the instrument list, sizes, quantity, target market and packaging requirement. We will use these details to prepare the right commercial discussion.
